Chambersburg, Pa. -

The Franklin County Area Development Corp. will receive a \$375,000 loan from the Pennsylvania Industrial Development Authority to help a Canadian company expand to the United States.

The loan, approved Thursday, will assist FCADC with the purchase of 3.5 acres on Opportunity Avenue in the Cumberland Valley Business Park, Chambersburg, and construction of a 15,000-square-foot industrial building.

The total project cost is \$1.125 million and Lehman Construction Services Inc. is the building contractor, according to a news release from FCADC.

The building will be home to DeeTag U.S.A. Inc., a subsidiary of DeeTag Ltd., which is based in Canada and manufactures hydraulic hoses and pneumatic system components.

The company is expanding to the U.S. to be closer to customer Volvo Construction Equipment Co. Volvo recently announced it is closing its Gederich, Canada, facility and moving production to Shippensburg.

DeeTag expects to create a minimum of 10 new jobs at the Chambersburg plant within three years, according to FCADC.
